PROFILE

Motivated and detail-oriented Web Developer with hands-on experience in building responsive and user-friendly web applications. Skilled in HTML5, CSS3, Tailwind CSS, PHP, MySQL, and modern development tools. Adept at problem-solving, collaborating in teams, and delivering projects for clients worldwide.

WORK EXPERIENCE

Freelancer

2022 – Present

- Collaborated with clients from around the world on diverse web development projects.
- Worked with various web technologies to deliver customized solutions.
- Gained experience in both front-end and back-end development.

PROJECTS

E-commerce | Final Year Project

- Developed a delivery system with order tracking and an admin panel using PHP, MySQL, Bootstrap, and HTML.
- Designed and managed the database system as part of a team project.

Weather Report | Internship Project

- Utilized OpenWeather APIs to fetch and display weather data using Express and the GET method.
- Processed and presented JSON data for real-time weather updates.

Online Exam Management System

- Built an exam management platform with tracking and admin functionalities using PHP, MySQL, Bootstrap, and HTML.
- Led the database system development in a team environment.
